“

We believe in our planet

”

Earth, water and fire: three essential elements in the manufacture of ceramic tiles and the reason why we are committed to caring for our planet. This has been our philosophy since the very beginnings of the company and we apply it to each and every stage of the business. This commitment is the reason for the environmental self-declaration we published under the Blue & Green label. In this ongoing everyday commitment to the planet, we never stop thinking about what we can do to help care for it.
